PROFESSIONAL SERVICES

Jive technical development services

WHEN SHOULD YOU BE INTERESTED IN OUR SERVICES?

Suppose you have requirements for Jive that the product does not meet? Or you would like more functionality or integration into your digital system landscape. Maybe you would like to extend the product to increase the performance in your company? Maybe JIVE has to be adapted to your internal specifications, be it CI/CD or legal requirements from e.g. the DSGVO?

SOLUTION

We analyse your requirements from a performance and user perspective and discuss with you any already defined requirements. On the basis of a recommendation for action, we work together to find a solution that can be implemented in the sense of a „Jive-Way“, so that future updates and upgrades are easy to implement and operation continues to be smooth-running.

BENEFITS

You will benefit from Pokeshot's many years of experience in numerous implementations for a wide variety of customers and industries, from medium-sized businesses to enterprise customers with several hundred thousand employees.

As an Award-Winning JIVE Partner, we bring the appropriate architecture and technical know-how to make your JIVE environment perform better and increase the return on investment.

The experience gained from many customer projects and the knowledge of how Jive works ensures that your requirements are optimally implemented.
