PEOPLE SOLUTIONS PERFORMANCE

EMERGENCY KIT FOR MICROSOFT TEAMS 2020

Introduce and train Microsoft Teams fast, effective and comprehensively.
Accelerate the remote performance of your employees efficiently within hours.

The number of home office workers is growing rapidly. Microsoft teams is a great tool to simplify working from home. However, the technical installation on its own isn't enough to make it work and keep the productivity going.

The key success factor of optimal usage is achieved fast when the employees know how to use the system quickly and independently of their location and master the new functionality effectively.

Pokeshot offers a combination of proven methods with the Microsoft Teams Emergency Kit: Webinars, interactive learning assistance tours and eLearning Nuggets.

Our experience of more than 10 years in enterprise social networks, online learning and Digital Workplace lay the foundation for your successful introduction of Microsoft Teams.

The Microsoft Teams Emergency Kit follows the proven triple jump for the introduction and learning of new software systems.

Emergency Kit for Microsoft Teams includes	Quantity
