

POKESHOT
PEOPLE SOLUTIONS PERFORMANCE

SmartKnowledgeHub

Increase speed and performance through immediately available and applicable knowledge.

The SmartKnowledgeHub allows you to publish content that requires explanation, such as e-learnings, training videos, HowTos, short information, technical documents, as well as any and every kind of knowledge, simply and quickly. These are available for employees in the "moment of need".

As cloud solutions with authorization mechanisms:

- Online via web or as a plugin
- Set and retrieve content quickly
- Best possible results through cognition
- Stand alone or in connection with existing infrastructure
- Microsoft Teams integrated (SmarterAgent APP)

As a stand-alone solution or as a supplement to conventional learning management systems (LMS)

- Ad hoc and work integrated learning
- Videos, 360° videos, PDFs, documents, links, simple or complex knowledge elements, and much more:
- Platform independent
- Azure based
- Mobile APP including barcode & object recognition
- Fast access from all devices
- Connection to other content sources
- Integrated reporting and analytics tool

The SmartKnowledgeHub is particularly suitable for employees, who are often on the road and want to access knowledge quickly and easily. Through easy access, intelligent search and the use of barcode or object recognition technologies, there are numerous application possibilities - whether in sales, technical field service, production, and numerous other areas.

Get in touch with us, so you can experience the SmarterKnowledgeHub yourself.
